VERTICAL FEATURES

Discover Dimensions

Vista vertical blinds add a new dimension to home or office interiors, they are versatile, low maintenance and give you the ability to control privacy and light. Vertical window shades can be designed to add character or compliment a sophisticated subtle design in any interior décor.

Straight and Structured

Vista verticals come in an extensive range of colors and designs and can be operated by either a wand or cord control system. The unique wand system that is unobtrusive also has been designed with safety in mind with no cords hanging from the vertical blind.

Covering that cares

Vertical blinds create a pleasant ambience as well as protecting furnishings and carpets from harmful sunlight. All vertical blinds have an automatic self aligning mechanism to evenly distribute the vertical blades giving you maximum coverage across the window.

Ease of Operation

There are a number of vertical blade options and the ability to have the vertical blinds opening from the centre or from either side of the window. Vista vertical blinds are mounted on colour coordinated tracks that are corrosion resistant and blend in with the vertical blades.

Get Inspired

The structured shape of Vista Vertical shades creates a stylish, clean aesthetic in both form and function. Select between different opacity options.

The semi-opaque option gently diffuses light without harsh lines or shadows, providing soft, radial light and privacy from the outside in. The room-darkening option blocks light allowing you to control the vibe in any room.

Range Dynamics:

SHADES: Available in more than 100 beautiful shades.

OPERATING SYSTEMS: Available in Manual option only.
